

Rootella G™ Application Instructions

When Applying in Growing Media (best in nursery)

1. Add Rootella G to a small amount of seedling growing media and mix until uniform (approximately 0.5 gr. per seedling. Contact Groundwork for exact dosage for your media and crop).
2. Continue to add and mix growing media up to the desired volume.
3. Add water if needed.
4. Avoid adding any fertilizers or compost to the growing media.
5. Fill up seedling trays and continue as usual with your own protocol.

When Coating Root or Root Ball (best upon transplantation)

1. Lightly coat root or root ball with Rootella G granules on all sides, to ensure root contact.
2. Transplant seedlings and continue as usual with your own protocol.

Recommendations

- For best results, store between 5-22°C (40-71°F), in dark place and protected from direct sunlight or heat source.
- Keep bag tightly sealed after use.
- Do not inhale; use only as directed.
- Try to reduce usage of phosphorus fertilizers during the nursery stage to enhance the mycorrhizal symbiosis.

Important Note

AVOID any use of systemic fungicides, especially on mycorrhizal plants. Application of systemic fungicide to roots kills all mycorrhiza. Non-systemic foliage fungicides are usually safe to use. See [Rootella Fungicide Compatibility](#) document for more information.

Terms and Conditions

Rootella™ contains mycorrhizal inoculant for plants and agricultural crops. Research has indicated that this product improves yields and reduces the necessity of fertilizer. Product embodies propriety information and may be used only for agricultural purposes. Any reproduction, breeding, transformation or reverse engineering is prohibited. Limitation of Liability: The mycorrhizal inoculant is sensitive to environmental conditions and Groundwork BioAg Ltd. is unable to make any warranties with respect to its performance. Groundwork BioAg Ltd. is not responsible for the use or misuse of this product. Liability is limited to the amount paid for the product (excluding shipping costs). Use only as directed. If you have any difficulty in the use of the product please contact us at: info@rootella.com.
